A TRAIN ROBBERY.

Union Pacific Passenger Train Held up in Wyoming.

DYNAMITE IS USED.

The Express Car Is Blown to Pieces and the Safe Opened—Robbers Take All in Sight and Make Their Escape.

Omaha, June 2.—The Union Pacific officials furnish the following account of the robbery of westbound train No. 1:

Just before daylight this morning in the midst of a drenching rain the train was held up just beyond Wilcox, Wyo. The robbers blew up the express car with dynamite, severely wounding the engineer and then escaped to the mountains.

According to the officials of the express company the robbers obtained only a nominal reward for their daring crime.

A posse under command of the sheriff of Carbon county are in pursuit and the officers are confident of capturing them.

Union Pacific officials received their first information of the affair from Engineer Jones of the train which was held up. His message is as follows:

"First section of No. 1 held up one mile west of Wilcox. The express car blown open and mail car damaged. Safe blown open and contents gone. We were ordered to pull over the bridge just west of Wilcox and after we passed the bridge the explosion occurred. Cannot tell how bad the bridge is damaged. No one hurt except Jones, scalp wound and cut hand."

Several other dispatches were received containing some details. They indicated that the robbers boarded the train at Wilcox. As the train reached the bridge one of the robbers crawled into the cab and at the point of a revolver ordered Engineer Jones to pull across the bridge and stop. In the meantime, others of the gang were at work on the express car. Just as the engine pulled off the bridge there was a tremendous explosion which scattered the express car hundreds of feet in every direction. The end of the mail car was crushed in and several stringers knocked out of the bridge. It only required a few minutes for the robbers to rifle the safe, which was blown open by the explosion. They took the contents, signalled their confederates on the engine and before the passengers and trainmen were aware of just what happened, the were off for the brush.

It required two hours to clear away the wreckage so the train could proceed to Medicine Bow, the next station from which the report was sent. The sheriff was notified at once and with a posse started in pursuit of the robbers. It is not postively known just how many there are of them. But only four were seen by the trainmen. It is believed a number constituted the party.

THE NEGRO CAUGHT.

Assaulter of Little Ethel Thedford in Jail at Corsicana.

Corsicana, Tex., June 2.—Warren Bartlett, the negro boy who criminally assaulted Ethel Thedford. 6 years old, at Rice, has been landed in jail here. He was captured near Lockhart schoolhouse five miles southeast of the scene of the outrage. Bartlett says he is 14 years old. Dr. Pannill says he is over 16. Reporter was refused admission to see him. Officers say he admitted his guilt. The law will not permit capital punishment on account of age. People are talking of rope and stake. The child is in a serious condition.

Absconder Findley in Custody.

New York, June 2.—Samuel M. Findley, the tax collector of Sauis Obispo county, Cal., from whence he disappeared on Nov. 19, 1892, with, it is claimed, from $12,000 to $15,000 of the county's money, arrived in New York, from Lima, Peru, on the steamship Advance, accompanied by a detective acting for the Fidelity and Deposit Company of Maryland. As he landed he was arrested at the request of the California authorities, and will be held for requisition papers. Findley was traced to the City of Mexico, to Vera Cruz, thence to the Isthmus of Panama, and from there to Lima. On account of there being no treaty, Findley could not be extradited, but when the $6000 which he had on deposit in a Lima bank was attached for the Fidelity and Deposit company, Findley returned voluntarily rather than be left penniless in South America.

Old Landmark of Wall Street.

New York, June, 2.—With the dissolution of the banking firm of Morton Bliss & Co., one of the old landmarks in Wall street have been removed. Negotiations are now pending by which the firm will cease to exist, and its business in all probability will be taken over by a trust company which is to be organized. The new trust company will, it is reported, bear the name of The Morton Trust company, of which Levi P. Morton, now the head of the firm, will become the president.

Married a Millionaire.

South Bend, Ind., June 2.—A story comes from the Klondike that Dr. Louella Day Underhill, who went from Goshen to Chicago and then to the Klondike, has married a man worth $8,000,000, who gave her $50,000 for a wedding present. Dr. Underhill is well known here.

AN ALABAMA DUEL.

One Man Badly Beaten and Three Brothers Shot Down at Athens.

Athens, Ala., June 2.—A street fight occurred here late Thursday in which four men were wounded, at least two of them fatally. The battle was between the Yarborough brothers, Bert, Walter and Will, on the one side, with Charles Campbell and his brother-in-law, Jesse Surginger, on the other. It grew out of a quarrel between Surginger and Bert over business matters. The two came to blows when the other Yarboroughs rushed up, as they claim, to separate the combatants. Surginger thinking the brothers were attacking Campbell, fired into the crowd and Bert Yarborough fell with a bullet in his lung. He is thought to be dying. Surginger continued to shoot, Walter Yarborough receiving two wounds which will prove fatal. The other brother, Will, is shot in the breast and has a chance for life. Campbell is badly beaten up, but not seriously injured, while Surginger, who is unhurt, is under arrest. Five shots were fired, all by Surginger, and but one missed its mark.

YELLOW FEVER WORSE.

The Disease at Vera Cruz Is of a Very Violent Form.

Vera Cruz, Mex., June 2.—Yellow fever continues here in a virulent form, the per centage of deaths being high. There is much uneasiness lest the disease grows worse, as the summer heat increases. The weather is very hot all along the coast and the families of well to do residents of Morida and other towns in Yucatan peninsula are fleeing to cooler regions. Many families have left this city on account of the great heat and the fever.

There is much anxiety to have the Federal government push sanitation.

Statement from Louisiana Board.

New Orleans, June 2.—By direction of the Louisiana state board of health the following telegram was forwarded to the several state boards of health interested in the reported case of yellow fever in this city:

"Representatives of this board with the representatives of the boards of Alabama and Mississippi, accompanied by Surgeon Murray of the United States marine hospital service, inspected all hospitals and hospital records in New Orleans and found nothing suspicious. It is probable that the several inspectors will make their final report at once. Nothing justifies the slightest apprehension."

ELISHA BAXTER DEAD.

He Was Governor of Arkansas and Had a Stormy Reign in 1873.

Little Rock, June 2.—Elisha Baxter, the tenth governor of Arkansas, died at his home at Batesville. Governor Baxter was born in Rutherford county, N. C., Sept. 1, 1827. He was elected governor of Arkansas in 1872, and his administration witnessed the stormest period in the history of the state, and brought about the Brooks-Baxter war. On April 15, 1873 Brooks proceeded to the governor's office, forcibly ejected Baxter and his private secretary, himself took the oath of office, summoned his followers to guard the capitol and issued a call for troops to support his assumption of office. Meanwhile the followers of Governor Baxter organized forces and the war began. The state continued in an uproar until May 15, 1874, when President Grant issued his proclamation recognizing Baxter as governor.

WILLED AWAY HIS WIFE.

Sam T. Jack Requests That His Wife and His Brother Marry.

New York, June 2.—Sam T. Jack has willed his wife to his brother, James C. Jack. The last testament of the actor and theatrical manager, proprietor of several theaters, "creole" and other burlesque companies, who died April 27 last, was filed for probabation Thursday in the office of the surrogate. It contains this remarkable provision:

"It is my wish, first and foremost, that my brother James, and my wife Emma, shall become husband and wife."

Mrs. Jack, the "Emma" of the will, was Miss Emma Ward, the favorite actress in the old Lily Clay Burlesque company which was playing at Niblos in 1892 when Sam T. Jack married her. James C. Jack was asked if he would accept the request of his brother, but he would make no statement.

Pecos Valley Beet Crop.

Eddy, N. M., June 2.—The sugar beet crop of the valley is now estimated at 20,000 tons, instead of 16,000 tons, the figures at which the factory officials first placed it. The acreage will be slightly below 2500 acres. It appears that nearly twice the ground has been planted in beets then was at first anticipated, and nine out of ten of the new arrivals turn their attention to that product at once.

Governor Ellerbee Dying.

Columbia, S. C., June 2.—Governor W. H. Ellerbee is thought to be dying at his home in Marion county. He has had symptoms of tuberculosis for several years and was prostrated with a well defined case of consumption on Jan. 30, two days after delivering his inaugural address. He cannot live very long.

Lee Bivins Acquitted.

Sherman, Tex., June 2.—Lee Bivins, a well known citizen and cattleman of this city, was acquitted in the district court at Wichita Falls, where he has been on trial since Monday morning for an assault to murder Skid Ellis, who was himself for many years a well known citizen of this county.

"From now until the campaign of 1900 closes the United States will be a stage upon which will be enacted one of the greatest dramas the world ever saw. The plot will be millitary-political with Mark Hanna manager and stage director. Climaxes will be numerous and thrilling. Admiral Dewey, the hero of Manila will, be first exhibited to arouse the emthusiasm of the audience. Then will come Funston and others. The purpose of the play is not yet apparent to the masses, and the denoument of the public mind is so thoroughly intoxicated with hero worship and the heart and conscience so absorbed with the spirit of imaginary patriotism that heads now proud will bow to the yoke of imperialism. These are not meant as prophetic words, but the capable surgeon never performs a heroic operation until the patient is submissive and the knife can be wielded without pain. A limb once amputated is lost forever. Sight never returns to a destroyed eye, and liberty, while it may live as a dream or hope, when once lost can be regained only by human uprisings such as mark the great tragedies of the world's history."

THE FARMERS CONGRESS.

Next Meeting will be a Big One--Inducements Offered to Campers--H. E. Alvord Coming.

Prof. J. H. Connell was in the city yesterday, and when questioned by the Eagle rspresentative about the meeting of the Farmers Congress at College July 25, 26, 27 and 28, said there was going to be a big crowd present, so many, indeed, that he wanted to give notice through the press that all persons coming to board at the College during the meeting should notify him by postal card or otherwise so that arrangements can be made for their entertainment.

A large number of those who attend the meeting will probably come prepared to camp, and this is a very pleasant, profitable and comparatively inexpensive way in which farmers living in this and surrounding counties may come and bring their families, enjoy an outing and get the full benefits of the meeting. Nice camping ground, good water, etc., are at the disposal of all who will come, and the college authorities are especially desirous of having as large a representation of practical farmers present as possible, and any efforts the people of Bryan may make to induce the attendance of such farmers and stock-raisers will be duly appreciated as well as beneficial to Bryan in the end by benefiting the country from which the town draws sustainance. Campers came from a distance of sixty miles to the meeting last year.

A feature of the meeting will be the discussion of miscellaneous subjects in five minute talks from those in attendance on the first day. The subjects of these talks will cover nearly every phase of agricultural and allied interests and the discussion will adduce much valuable information and experience.

Another feature of the meeting will be the presence of Mr. H. E. Alvord, chief of the dairying bureau of the agricultural department at Washington. Mr. Alvord was formerly president of the Oklahoma and Maryland A. and M. Colleges. He visited the Texas A. and M. College a year and a half ago and familiarized himself with the conditions prevailing here, so that his knowledge and experience will be of great advantage to the meeting. It will be remembered that the secretary of agricultural, on his recent visit to College, emphasized the importance of developing the darying interests in Texas, and promised upon invitation of Prof. Connell, to send Mr. Alvord to the farmers congress meeting. Mr. James Wilson, son of the secretary, also promised to come if possible.

A band meeting was held Thursday night and it was found that so far the subscriptions are totally inadequate to purchase instruments on which about ninety dollars will be needed for the first payment. Those who are interested in the plan for a band should help the organization out at this time when help is most needed. After the instruments are secured and the benefits to the public of the presence of the band here come to be appreciated the necessary funds for its maintenance will not be so hard to secure. There are nine applications for membership before the band and notice of others have been received, but no action has been taken on the matter of membership yet.

TEXAS CAPITAL NEWS

Decision Rendered That All State Institution Employes Pay Board.

BIG LAND DEAL ON.

Governor Signs Bill for the Payment of Texas Volunteers—Test of the Sunday Law—School Money Ready for Distribution.

Austin, June 2.—The attorney general's office has decided that attaches of state institutions are not entitled to free board under the new law, but must make arrangements for their own board. Heretofore superintendents, their assistants, matrons and servants of the various asylums, penitentiary, and all employes of other institutions, boarded at the institutions at the expense of the state.

Big Timber Deal Pending.

Austin, June 2.—A big deal in state timber lands is about to take place and the reason it has not been consummated before now is because two large interests are after the timber on the same lands. It transpires that the executors of M. T. Jones have deposited $50,000 in the state treasury to purchase the pine timber off the school lands located in Jasper and Newton counties, and John H. Korby, the railroad and lumber magnate, has also deposited $50,000 in the state treasury and wants the timber off the same lands as the Jones people covet.

The same situation exists between two rival mills for timber on lands in the same locality. About $15,000 is involved in the latter dispute. The commissioner also has it under consideration.

Pay for Texas Volunteers.

Austin, June 2.—The governor has approved the bill appropriating $100,000 to pay the officers and men of the Texas volunteers prior to the mustering into the service of the United States in the late war with Spain; to pay those who were rejected: to pay for the necessary supplies, subsistence and transportation prior to their being mustered into service: to authorize the governor to collect from the United States all moneys expended under this act.

Sunday Law Test Case.

Austin, June 2.—The court of criminal appeals has taken under advisement a very important case, G. L Searcy vs. state, from Karnes county.

This case tests the Sunday law. Attorneys for Searcy argued that the law is unconstitutional because it permits druggists to sell anything and everything, while other establishments are forbidden to sell the same articles, which is class legislation and unconstitutional.

The assistant attorney general contended that the law only allowed druggists to sell drugs and drugs alone and does not permit the sale of other articles and is therefore constitutional.

School Land Forfeitures.

Austin, June 2.—The state treasurer has filed with the commissioner of the general land office, a list of about 1500 forfeitures of school lands for non-payment of interest due last November.

Land Commissioner Rogan said he is issuing a notice to each person whose land was on the list of forfeitures, but that he would not declare the land forfeited, and that they would be given until July 5 to pay the interest which was due last November.

This action the part of the commissioner will prove a blessing to many who were unable to pay interest last November, but will have the amount before July.

Tendered to Judge Watkins.

Austin, June 2.—Governor Sayers tendered the appointment of judge of the Third judicial district to succeed Judge Gill, promoted to the court of civil appeals bench. to Judge A. B. Watkins of Athens, Henderson county, but Judge Watkins declined the honor.

Can Draw for School Money.

Austin, June 2.—The department of education has sent out notices to treasurers of counties, cities and towns, that they can draw upon coupon No. 10 of their regular annual apportionment, 15 cents per capita of their scholastic population. The amount will aggregate about $70,000.

Price Granted a New Trial.

El Paso, Tex., June 2.— The motion for a new trial in the case of O. L. Price, convicted of the murder of C. E. Mulhern on Nov. 11, 1898, at Fort Davis, and sentenced to serve five years in the penitentiary, was sustained by District Judge Walthall. The present bond of $10,000 holds good.

Lady Seriously Hurt.

Bonham, Tex., June 2.—While Miss Saphronia Nichols was cleaning a window in the upper story of T. R. Caldwell's residence in some way became overbalanced and fell out of the window to the ground. She is seriously hurt, but it is thought not fatally.

Murder and Suicide.

St. Louis, June 2.—As a result of a family quarrel, Charles Hersog, a teamster, shot his young wife and her mother, Mrs. Mary Hopp, and then killed himself. Mrs. Bopp is dead and Mrs. Hersog cannot live.

Will Build an Elevator.

Waxahachie, Tex., June 2.—A company will build an elevator to handle the grain of this section with a capacity of 400,000 bushels. The firm will be in position to store grain or ship it, according to the wish of the owner.

As a result of the awful sand storms yesterday Bryan lost more by reason of the interruption of business and damage to goods that street springling will cost for a week. There was a good crowd in town and trade was brisk, but the sand is just awful. Thank the Lord, though, the old town has at last waked up, and according to promise, sprinkling will be only a matter of a few days.

NEW TYPE OF CRUISERS.

Six Fine Warships to Be Soon Built by the United States.

Washington, June 2.—Agreement has finally been reached after several months of discussion by the naval construction board of the details of the six fine cruisers, the Dover, the Des Moines, the Chattanooga, the Galveston, the Tacoma and the Cleveland, authorized by congress on March 3, and official announcement for the benefit of shipbuilders will be issued in a few days.

The approved designs contemplate to gradually improve on the Raleigh type protection, with much wider radius of action at a sacrifice of two knots speed, but with added comfort for the men and cooperative independence of dry docks. Their displacement is almost the same as that of the Atlanta class, but they are to have the great advantage over those pioneers of the new navy of higher freeboard and twin screws.

Compared with them, they showed the marked evolution in warship designing which has taken place in 15 years and with the increased use of electricity for auxilliaries, the sheathing of the submerged hull, the substitution of high pressure water tube boilers and the absence of combustible materials of construction, the new cruisers constitute a distinctly new type in the American navy and one that is not surpassed in any ship so far designed abroad.

The report of the credentials committee seating the Cox delegates from Hamilton county, Holcomb delegates from Cuyahoga, Nash delegates from Franklin and others, was adopted without opposition. The counties were then called for the presentation of names for the nomination of governor and it required a long time for these speeches. The name of Hon. H. M. Daugherty was presented by James W. Holcomb, chairman of the contesting Cuyahoga delegation that had just been seated. The name of Judge Nash was presented by Hon. Henry Taylor of the Franklin county delegation. The name of Judge Hull, was presented by Judge King, of Sandusky.

WILL LAST LONG.

War in the Philippines a Hard Task According to General King.

San Francisco, June 2.—Brigadier General King who returned home on the transport City of Berlin, owing to ill health, in an interview says:

"The situation in the Philippines is most serious. The people of those islands will keep up a guerrilla warfare and there is no telling when the hostilities will cease. They retire to the fastenness of their mountain retreats when they are whipped and hide in the jungles, subsisting on practically nothing. They have no need for a base of supplies. It will necessitate a large force of men to subjugate them completely.

"The war in the Philippines is by no means ended. Their entrenchments are works of military art, and construction equal to the best that the most civilized military nations have produced. Under the Spanish regime the Filipinos learned something of war and we are receiving evidence of this every day.

"The volunteers who fought in the Philippines are a splendid lot of men, capable and accomplished fighters. They behaved like veterans when under fire and there is no limit to their courage. Their record in that awful country will adorn pages of American history recently made and unwritten."

General King will remain here for a few days and then leave for the east.

The gift to the trustees of 300,000 shares of Southern Pacific stock would not affect the management of the railroad. The Searles and Croker interests in the Southern Pacific company are pledged to protect the interests of the Stanford university. "TIME IS MONEY."

"The Longest Way Round Is Sometimes The Quickest Way Home."

These wise old saws apply to the new fast train service now in effect via the Great Rock Island Route. while not the short line everywhere, we "get there," which is the main point to be considered.

A whole business day saved is one argument. A maximum of comfort by reason of through service, modern equipment; rock ballast; in short, an up-to-date railway, are several other arguments to assist you in deciding how and via what route to purchase tickets.

The new schedule is as follows: Leave Fort Worth, 8:25 a. m.; arrive Lincoln, 7:10 a. m.; arrive Omaha, 9. a. m., connecting at latter point with train through Iowa; arriving Des Moines; 4:39 p. m.
